APPLETON (WLUK) -- The opening of a new exhibit is making a difference for families in need.

On Monday, the [Building for Kids](#) in Appleton held a ribbon cutting ceremony for its new Babies and Toddlers Around the World exhibit.

The interactive play area features places and animals from around the world. It was created specifically for children three years old and younger.

"What we did is when we were starting to kind of re-establish and see what we wanted this exhibit to be, we went through developmental milestones, what did we want to pull out so the kids were seeing, hearing touching, feeling, all the things that they need to do at those ages and that's how we came about with our Babies and Toddlers Around the World," said Katy Compton, director of marketing programs at the Building for Kids.

Coinciding with the exhibit's opening, the museum is holding a diaper drive to support [Jake's Diapers](#) and the [United Way Fox Cities Diaper Bank](#). All donations will be matched by Kimberly-Clark's Huggies.

From now until Feb. 1, visitors of the museum who bring an unopened package of diapers can receive free admission for their family. If you are already a Building for Kids member, you will get a month added on to your membership.

The Building for Kids is open from 9 a.m. to 5 p.m. Tuesday through Saturday, noon to 5 p.m. on Sundays and closed on Mondays.
